PRESIDENT: Any further discussion on the committee amendment? We are debating the committee amendments. The question is shall the committee amendments be adopted? All those in favor say aye, those opposed say no. So ordered the committee amendments are adopted.

CLERK: Read amendments to LB212.

SENATOR WALDRON: Mr. President, I move the adoption of the amendment.

PRESIDENT: Senator Waldron before you begin the explanation of your amendments may I take the privilege of the Chair to introduce some guests that we have here this morning. Seated in the south balcony we have a visitor from Germany Mr. Reingorn and also he is accompanied by Ms. Rita Comb and also Miss Raun. I wish that they would please rise so that the legislature could at least see you. We are delighted to have you here as visitors here today and we are pleased that you could visit us. Thank you. Now Senator Waldron I thank you for the interruption.

SENATOR WALDRON: Mr. President, members of the legislature I had forgotten about these amendments. These amendments were brought in after I had drafted the committee amendments and they were proposed by the Avon Companies, the people that are involved in cosmetic sales or one thing or another are the house to house and these are certainly agreeable to myself and to the members of the committee at that time but they came in after the committee had already reported the bill out so it just clarifies more closely what is a door to door salesman and what is not. They are perfectly compatible with this type of legislation so I move their adoption.

CLERK: None on the desk Mr. President.

SENATOR WALDRON: Mr. President I move the bill as amended be advanced to E & R for review.

PRESIDENT: Any further discussion of the bill? Senator Kelly. Motion is to advance the bill.

SENATOR KELLY: Mr. President, members of the legislature, a question of Senator Waldron. Senator Waldron what were the specific major changes which did away with the opposition of the bill?

You see at the time this was composed the federal trade commission had already enacted this basic rule but in the meantime so they wanted us to be in conformity with that. But in the meantime between that time and now, it was taken to court, not this specific thing was taken into court under the federal trade commission but the whole idea was challenged in the courts that the
